You keeps a hungerin' for it. But lines, express office, four mills, lumber yards. Population 1100; population of county 15,000.

It's fully worth de patience dat you've called upon to show.
Dar ain't no politics or strikes a-raisin' up a dust.

The meeting of the tobacco growers of the county which was held at the Court House, this place, on last Saturday, was an enthusiastic one and the tobacco men present showed an interest in the plans of the Burley Tobacco Co. that equaled all expectations. Mr. W. C. Mr. McChord has made several trips to New York and New Orleans during the past few months and has succeeded in securing financial backing to the extent of \$10,000,000 for the purpose of handling this year's crop.

The plan of the Burley Co. as set out in brief is as follows: The Burley Co. purposes to raise in stock subscriptions among the growers themselves and others \$200,000. When this is done and the greater part of the year's crop is secured at schedule prices the New York syndicate will furnish \$9,500,000 with which to pay the farmers for their tobacco. This tobacco is to be graded and received at the county seat in each town and the farmer paid for it then and there. The Louisville Tobacco Warehouse Co. has agreed to take this tobacco for storage in its various warehouses until such a time as the Burley Growers' Co. can sell it. In order to have as many of the tobacco growers to become stockholders and interested in the company it is proposed to allow the holders of the \$500,000 worth of stock 40 per cent of the profits made out of the tobacco handled, while the New York syndicate which furnishes \$9,500,000 of the capital will receive 60 per cent. Thus the tobacco grower not only gets a good price for his crop, but he is allowed to share in the profits after it has passed out of his hands, provided he becomes a stockholder, which is of course optional with him.

For Circuit Judge

We are authorized to announce
I. H. THURMAN
as a candidate for the office of Circuit Judge of this the Eleventh Judicial district, composed of Washington, Morgan, Taylor and Green counties, subject to the action of the Democratic party.

The withdrawal of H. P. Cooper from the race for the Democratic nomination for Circuit Judge leaves Judge I. H. Thurman a clear field and assures his election in November, as it is hardly within the possibilities that the Republicans will put a candidate in the field. Judge Thurman showed this strength with the voters of the district from the very first mention of his name in connection with the judgeship. Gov. Beckham was far-sighted enough to see this and although he had to turn down applicants for the place who were closer to him politically he did the popular thing and appointed Thurman. During the short canvass which Judge Thurman has made he has gained strength daily until his one opponent very likely foresees the inevitable result and gracefully withdrew while it was yet time to save the expense of a primary.

We believe that the Barley tobacco-growers of Kentucky have the opportunity to assure a great and prosperous future for themselves in their line of agriculture by co-operating with the plans of the Barley Tobacco Growers Co. If the thing is a go this season it means permanent high prices for tobacco and more money each year for the farmer for his year's work. Money for the farmer means more money in circulation, more business for the town merchant and others dependent on the farmer. As far as Washington county is concerned our farmers are thoroughly awake to the situation and if the movement has taken hold as well elsewhere success is assured.

The public will be entertained for some time to come by reading and digesting letters of acceptance from candidates. President Roosevelt has just given us plenty to think over and it is now said that former Senator Davis has completed the first draft of his letter accepting the Democratic vice presidential nomination, and the finishing touches will be added Thursday. The document will not be made public until after the publication of Judge Parker's letter of acceptance.

All signs point to an early ending of the Russo-Japanese war. The ships have practically brought it to a close themselves by whipping the enemy at every turn and now it is said that Powers will be called upon to intervene for peace and that a convention of the Hague tribunal will be called for that purpose.

The widest excitement since the famous Lister corn occurred in the Chicago grain and wheat pits. On the strength of the Government crop report and predictions of killing frosts wheat advanced three and one-half cents and corn two and three-eighths cents.

Sad Death

Little Charlie, the ten months
old babe of Mr. and Mrs. Oscar
Aubrey was called by the Angel
of Death on Sept. 8th. He had
been ill about four weeks of flux
and a slight attack of brain fever.
Do not weep dear parents, sisters

little departed angel has gone to
a better, brighter, land where
he will never know grief or sor-
row. We know it was hard to
give the little darling back to
the One who sent his sweet

for so short a time; but remem-
